Strongly recommended non-core vaccines - Bordetella & Influenza at 8 - 10 weeks old - Bordetella (\$21) - Influenza (\$42)

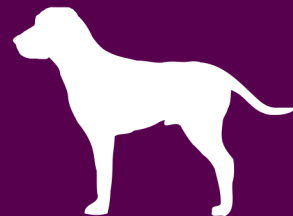

Vaccines prevent against the most common and dangerous diseases: Distemper, Parvovirus, Parainfluenza, Leptospirosis, and Adenovirus.

Quoted prices are approximate and reflect buying all the recommended services and prevention products. Our staff will work with you to find products that work for your budget and pet.

You can visit the clinic to purchase Simparica and Simparica Trio in between your visits, but it is more affordable to buy several doses at once. Ask us how.

Recommended Core Vaccines

- Brief medical exam - \$15
- Rabies
- DAPP
- Leptospirosis
